GLORIOUS PAST AND PROMISING FUTURE

SAYED KADHEM AL DURAZI

CHAIRMAN

While looking back to the past, memories take me to the 1950s, when there was only a family business in the form of a small brick factory. The journey from there was gradual. We are currently counted among the best companies for the services we offer.

The Group has been committed to provide its clients the best services using the most advanced technologies. The success of the newly added diversified branches to our groups underline the Researches value of the research that we have implemented to explore new technologies and areas of improvement.

While introducing this document, we always welcome customer feedback to improve the of our services. We are committed toward providing our clients with solutions of the best quality,

keeping in mind the safety of the society involved and without harming the environment, thereby contributing actively to the development of the nation.

I would like to highlight that this success was built on our customers' satisfaction, and the good will we earned through uncompromising stands in quality. While thanking our customers for the trust they have bestowed upon us, I can never forget the contribution of my staff, my trusted lieutenants, who have made this feat possible. I believe that they are our greatest assets, and would like to dedicate this opportunity to salute them all.

SAYED HASAN AL DURAZI

MANAGING DIRECTOR

There is something in common with clients, irrespective of the service they demand. They always require their service providers to provide them the best quality at an affordable cost. We are obliged to deliver the best quality of services and make sure that the customers have received the best for what they have paid.

Customer satisfaction is frequently measured with effective surveying methodologies. Customer satisfaction surveys are conducted twice a year. The team makes sure that the survey is conducted among the right cross section of customers. Such surveys have always provided us with novel ideas to serve the customers to the best of our ability.

In achieving these, we have never

made quality and safety a second priority. The QA/QC department is regularly updated with the most sophisticated methodologies and with the best possible staff.

The group's safety team has the reputation of being one of the best in the industry. The work places are analyzed and the workers are made "feel at home" at their work places. Job Hazards are eliminated and safety is ensured while at work. To add to the team's credit, the places where work is carried out are analyzed after the work, to ensure safety of the clients.

The recurrence of our customers says it all.

SAYED HUSSAIN AL DURAZI

FINANCE DIRECTOR

We at Sayed Kadhem Al Durazi & Sons BSC (c) understand that finance has an integral part to play in achieving the goals of an organization. We have dedicated ourselves to continually improve the quality of services offered. We focus on the needs of our customer and give importance to their satisfaction.

This helped us in escalating the firm to our current position, and has motivated us towards achieving a sustainable growth. Through an improved communication with our business stake holders, we work effectively in allocating resources to satisfy the needs of our clients.

We are proud of what we have achieved during the past. We have made a positive contribution to the

local communities and thereby have effectively contributed to the building of the nation, by developing long-term partnerships with the government organizations of the Island.

Keeping in mind the external business environment, we would be trying to build a strong income structure, without disturbing the financial discipline the company has always maintained."

SAYED HASHEM AL DURAZI

GENERAL MANAGER

Sayed Kadhém Al Durazi & Sons Co. BSC "SKD Group" is a diverse group of companies that meet the institutional, industrial, commercial, and residential customers' needs. We introduce a wide range of products and services to these markets.

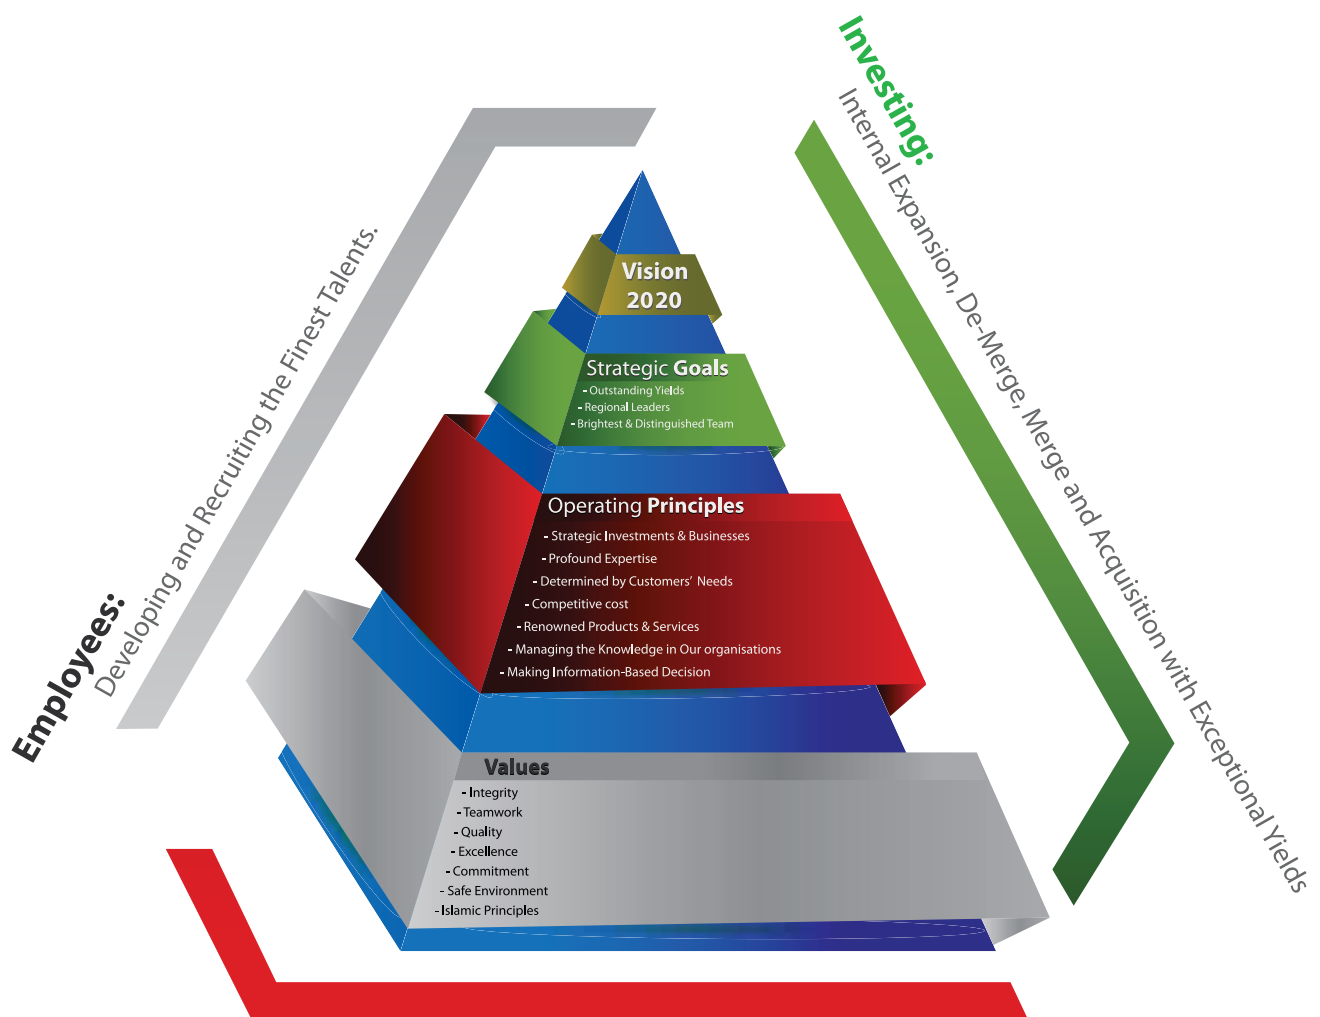

Since 2010, when I became the GM of SKD Group, we continued our effort and determination to develop sustainable and strategic improvements in our enterprise strategy. We have continued to invest in our Research and Development department (R&D) and focus on deploying its outcomes. We are progressing with our health, safety and environmental objectives, improving our quality assurance and control goals, reducing our projects completion time, enhancing our yields, and diversifying our products and services. R&D perseveres to be an

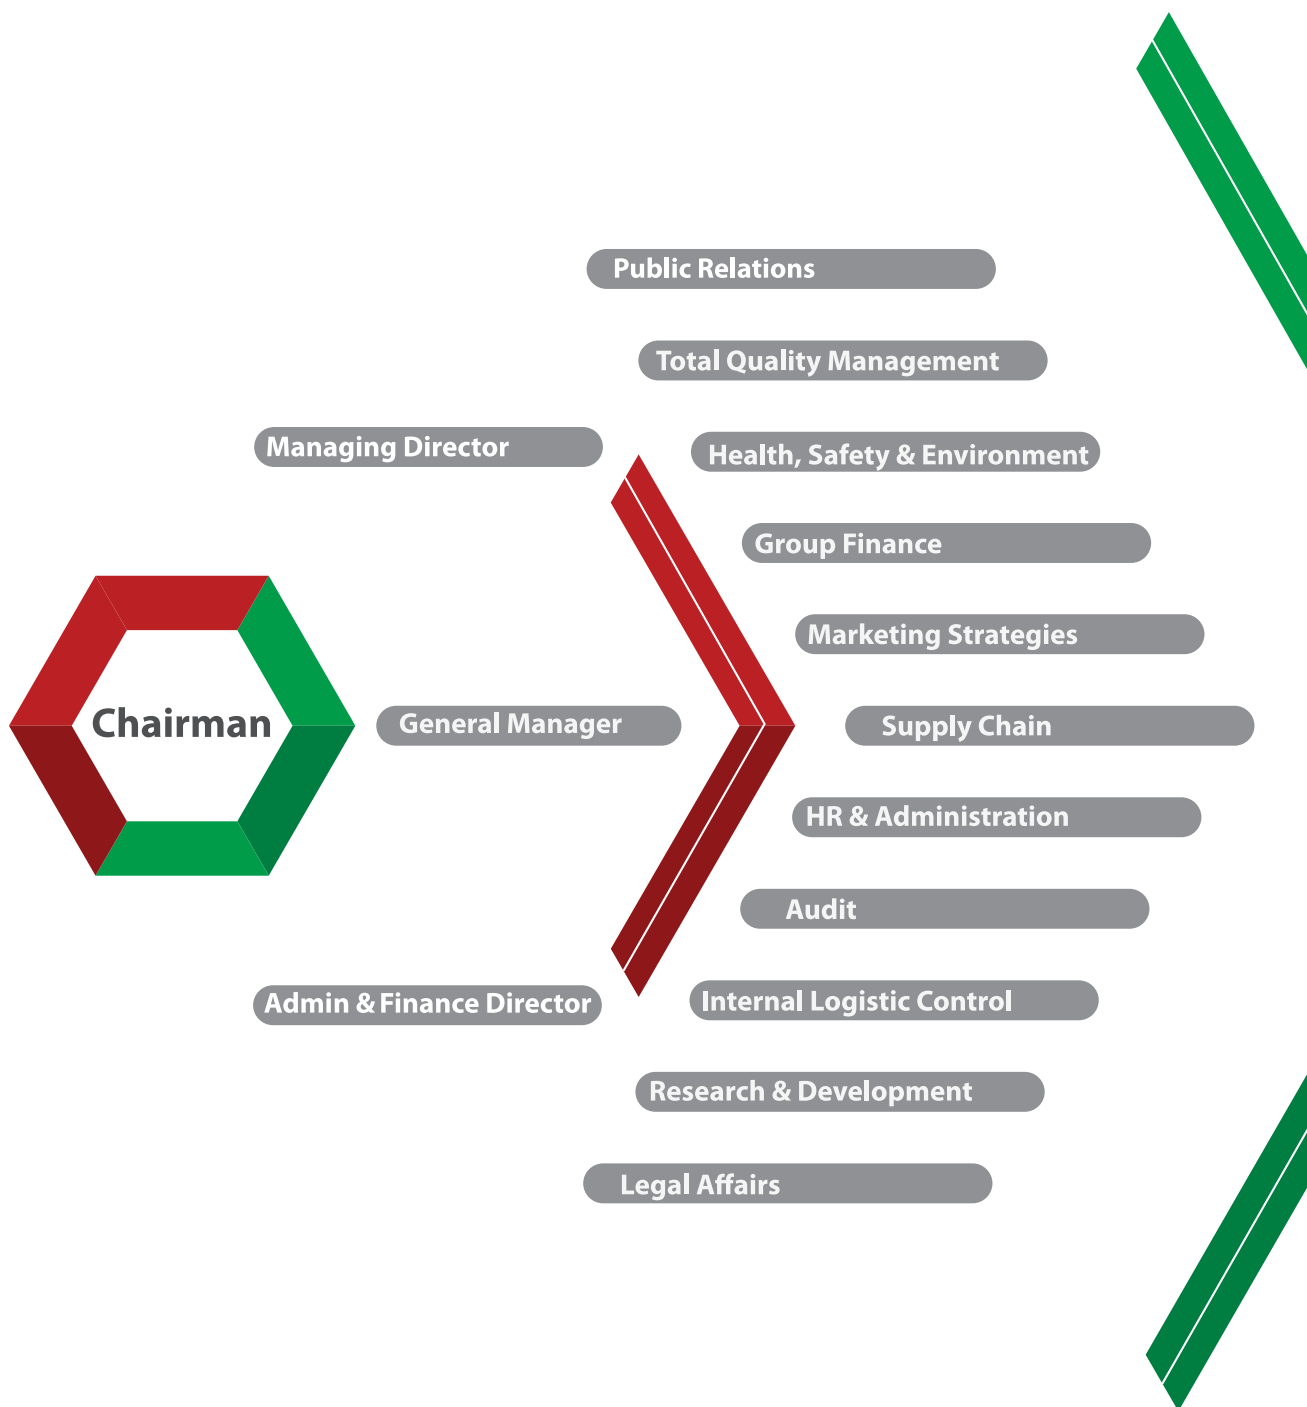

essential element in us achieving our "Vision 2020".

In 2010, we made strategic investments and businesses in internal expansion, de-merging the profitable and potential expandable departments to independent companies, and externally merged companies and made new acquisitions. Furthermore, we focused on investing heavily in order to have the best team and have continuous development plans for each and every employee. We focused on positioning ourselves as a profitable company with sustainable growth, despite the challenging economic conditions. We expanded, progressed, and became a market leader and moved ever closer towards our enterprise strategy and "Vision 2020" to become a regional leader.

« MORE THAN

50

YEARS OF HERITAGE AND
COMMITMENT TO
EXCELLENCE

HISTORY OF SKD

The Sayed Kadhem Al Durazi & Sons Co. BSC (c) started its activity as a small brick factory, founded by the current Chairman, Mr. Sayed Kadhem Mohsin Al Durazi.

In 1963 he owned two trucks and started a transportation business. In 1970, the fleet was made bigger when 3 more trucks joined the ranks. In 1972, he added a few heavy machines, thereby laying the foundation for the Sayed Kadhem Al Durazi Contracting Establishment, which was formed in the year 1974.

Thereafter the company started growing and a trading department was added to the group, which started with the agency of Sehan Motor Company. This later gave a way to the Daewoo Motor Company.

At present, the company can boast being the agents of Doosan - Daewoo Heavy industries, one of the largest heavy equipment sellers in the region, Soosan Heavy Industries, Cheng Gong China and such other heavy equipment manufacturing giants.

The company laid the foundation stone for an equipment hiring company in the

year 2003. The growth of the division was so tremendous that, "Al Haidariya Heavy Equipment Hiring", is now a name synonymous with equipment hiring in the region.

Grand Tiger for Industrial and Mechanical, Universal Foundations, Universal Ready Mix Concrete, Universal Block Factory, Universal Agriculture, Universal Real Estate, Single Point for Building Materials, Single Point Aluminium, and Single Point Carpentry, are further development of the company.

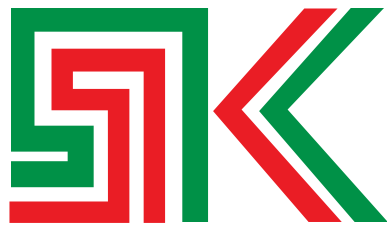

Sayed Kadhem Al Durazi & Sons Co. BSC (c), continues its Development march toward a better world, and has been contributing remarkably to the country's growth, joining hands with the Ministry of Works & Housing, Bahrain Petroleum Company BSC, Aluminium Bahrain BSC (c), GPIC, Ministry of Municipalities and Agricultural Affairs and a lot of other organisations.

HEALTH, SAFETY AND ENVIRONMENT

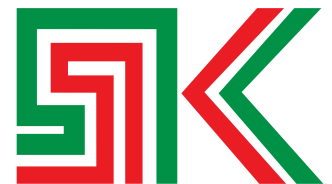

A primary success factor for any work is to achieve ZERO Lost Work Day Cases. It is our desire to complete any work without sustaining any injuries, and we expect our client's support in so doing. Employees are committed to an accident prevention program which are essential to meet the Group's objectives.

The Group HSE Culture

"The work is never so urgent that we cannot take the time to do it safely. It is the responsibility of each individual that everyone leave the job in the same condition they arrived".

Specific HSE goals as "No lost-time or restricted workday cases, no recordable cases, no fatality", through a safety plan and procedures that are aimed at modifying the behavior of all employees

of the SKD Group. The employees thus become safety conscious to prevent all accidents and injuries. The group provides medical and first aid facilities to provide immediate treatment and proper management of injuries.

SINGLE POINT HEAVY LIFTING

CRANES - FORKLIFT - LOADALL

Transportation and Logistics has an inevitable role in a fast growing industry. Single Point Heavy Lifting was formed to cater the logistic need of our customers. Although the heavy lifting was part of the Hiring Business, the day to day increase in Transport and Logistic requirements showed that it was the need of the hour to separate the business from the Equipment Hiring Company, thereby concentrating more into the specific needs of the customers. The impact was tangible. Procurement of Heavy Lifting Cranes, Low Beds and Flat beds capable of carrying heavy loads and induction of specialist supervisors and operators have given the company an upper hand in the region.

Currently the company can boast of having the facility for lifting any weight ranging from 1 Ton to 400 Ton. The fleet consists of forklifts ranging from one Tonne to cranes ranging to 400 Tonnes. Single Point Heavy Lifting is the only company to own a 400 Ton Tadano

crane in the Middle East.

The fleet includes equipments such as Man Lift, Scissor Lifts, Block handlers and many other types of equipment used for lifting and transporting.

The equipments are the most modern and are maintained mainly by the manufacturer's agents on the Island. Machineries Provided – in a Nut Shell

SINGLE POINT BUILDING MATERIALS

The motivation behind Single Point Building Materials was to assist our customers in getting all their construction needs in one place. Our business model is structured vertically to interact directly with three customer types: direct customers, retailers and wholesalers.

For direct customers, our consultants and sales people are categorised for individuals and inexperienced, small contractors and big to giant contractors. However, for retailers and wholesalers, they are integrated with our system to order directly, either to directly to the customers or their warehouses.

In Single Point Building Materials we:

1. Import and Export Building Materials
2. Act as a liaison point in arranging the following services:

- a. Consulting services for construction needs
- b. Arranging for earth filling materials
- c. Arranging machinery for hire
- d. Providing earthwork
- e. Providing building construction
- f. Arranging Ready Mix concrete
- g. Arranging building blocks and other finished building materials
- h. Arranging mechanical contracting works
- i. Arranging electrical contracting works

SINGLE POINT ALUMINIUM

Single Point Aluminium is recognised for its price competitiveness, unparalleled products, extensive range of accessories, excellent customer services, and punctual delivery for both retail wholesale, private commercial projects. Single point Aluminium was previously operating under the name of SK-Contracting and specialized in the Commercial Projects. Gradually, it has strengthened its position in the sector by diversifying its specialised products. In 2012, this division was demerged from SK-Contracting and come to be known as "Single Point Aluminium".

Single point Aluminium has an extraordinary team to offer expertise on appropriate tailor-made products to outfit your space requirement, individual desires and budget. We manufacture an extensive range of aluminium-based household products from exterior

fencing to interior kitchens and a range of window and door products which are both innovative and stylish,

Our focus now is to grow as a global aluminium solutions' competitor with unique and innovative products and accessories.

SINGLE POINT CARPENTRY

Single Point Carpentry manufactures a wide range of products such as bespoke kitchens, interiors, bedrooms, furniture, doors, frames and whatever wood made products you require.

Single Point Carpentry designers and experts cater our customers with the options that could meet both their desires and budgets. The options could be regarding the material used, such as: ash, birch, cherry, elm, ebony, kingwood, oak, maple, mahogany, rosewood, satinwood, walnut, etc., the designs and dimensions options, or the way it is produced, i.e. handmade or by machine. Single Point Carpentry designers and experts convert a slab of wood into a piece of art and the raw wood to the desired furniture or decoration that fills your place with a unique character.

At Single Point Carpentry we accept all kind of projects; from multi-thousand house carpentry projects to a single furniture piece or even a gift item.

INTELLIGENT E-BUSINESS SOLUTIONS

Intelligent E-Business Solutions is a specialised company in information technology and advertising solutions. IEBS provides ERP's customisation, computer applications development, web-based services, graphic designs, advertising services as well as IT support and network design and implementation. Our team members consist of software and network engineers, graphic designers and electronics technicians. As information technologies get updates and change frequently, we invest in our team to be the best, updated with the latest technologies, certified, and top qualified.

Since we started we have had many projects to provide luxurious companies' profiles, developing web-based applications such as booking system and ordering system, online and offline advertising services and

website development. We currently permanently provide IT Support for 13 companies located in different locations. We designed and implemented CCTV camera and fire alarm systems for several companies and buildings.

In future we plan to get more customers and make a difference in the market. As the market is considering web services, we plan to digitise some services and develop the advertising methods in Bahrain to target the right category.
